

Part Two: Sustaining Environments

Directions: In a 500 word narrative, address the following:

- **Have the implemented action plans from the CIP been effective? What results or data support your choice?**

Our MAP data...*elaborate further about over time*

- **How have the results been (or how will they be) reported to stakeholders? What is your evaluation of these methods?**

There is a School Improvement Council (SIC) report that is sent to parents, created by the principal. It directly aligns with the School renewal plan. It also highlights school achievements from students and staff, including grants, etc.

- **In those areas where improvement actions have been successful, how will leadership, faculty, and staff continue to promote change and sustain the results? Will they need additional resources? Explain.**

We are moving in the right direction, based on the growth already shown. We will continue to track data weekly, monthly, and quarterly with our WIGs. This data will continue to drive instruction, and we will improve in areas where we see fit. We will continue to push ourselves, through positive actions, communication, We are so close we would be ready to change our goal soon.

Next Week by Wednesday

Add LIM Training to cover 6.3

Interview Pastor Smith

Schedule days next week to work with Dr. Richardson on book rooms

Other administrative duties? See how to cover 5.4 and 5.5-discuss with Richardson or Benson
